DEPARTMENT OF CHEMISTRY SEMINAR SERIES

Use of researcher profiles to boost your academic career

Barbara Parnaby

Faculty Librarian, Science & Engineering | Research & Learning Services
Curtin University Library

Researcher profiles session – Find out what a researcher profile is, the keys tools available in different systems; their pros and cons, where to go to set yours up. The aim of the session is alert researchers to the range of tools and the benefits of investing some time in maintaining your own profile, to save time later when tracking your research, preparing grant proposals, measuring your impact, etc.

Friday, 30th August 2013 at 4:00 PM
Exhibition Space, Building 500, Room 1102
